Luxaflex®

Customised solutions for your home

Luxaflex® Window Fashions – Bringing you Australia’s largest range of inspirational shading solutions since 1954. At the forefront of innovation and technical excellence, the international company behind the Luxaflex Brand develops and designs many of these exclusive patented products and operating systems. With so many options on offer, we provide a specialist consultation to ensure your individual needs are met. To get you started, we have put together the following considerations, designed to help you narrow down the perfect solution for inside and outside your home.

Luxaflex Duette Shades are ideal for specialty shaped windows such as skylights and arched windows. See page 14 for more details.

Light Control

Light control is the number one consideration for most homeowners in choosing a window covering. Whether to darken a bedroom, reduce glare in a living room, or utilise natural light to brighten a room, different opacities in a window covering can filter or deflect sunlight depending on your needs.

Ultraviolet light in sunlight causes damage to your furnishings, fading wooden floors, furniture, upholstery, carpet and artwork. Window coverings help protect against these damages to your home by filtering the light.

Above: Luxaflex Duette Shades provide choices to achieve different levels of light control for your home.

Insulation & Energy Efficiency

One of the greatest benefits of Luxaflex Window Fashions is the ability to control the room’s temperature. Insulation and energy efficiency is achieved through the selection of the right blind or awning. A well insulated window can reduce energy consumption as it relies less on air conditioning/heating to control the temperature of a room. **Save up to 49%¹** on your heating costs with Luxaflex® Duette® Architella® Ménage Shades through Winter and **save up to 60%²** on your cooling costs through Summer using a Luxaflex® Evo Awning. Combine external awnings and internal blinds for the best result year round.

The unique honeycomb structure of Luxaflex Duette Architella Ménage Shades traps the heat and prevents heat gain and loss.

Luxaflex Duette Shades deliver superior insulation

Luxaflex Dual Roller Blinds in sheer and room darkening blockout fabric assure your privacy when you need it

Privacy

Maintaining privacy day and night is an important consideration for many homeowners, particularly for bedrooms and bathrooms. With higher density living on the increase around Australia, stopping prying eyes from the street and neighbours provides security for you and your possessions. However you don’t need to give up a beautiful view or block out the daylight to achieve this. Day and night time privacy is achieved through louvred products where you can angle the vanes in addition to the large range of dual function products such as Luxaflex® Dual Roller Blinds, Luxaflex® Duette® Duo-Lite Shades, and many others our Luxaflex Consultants can recommend to suit your home and budget.

Sheers and sunscreens provide daytime privacy. Close the vanes or add an extra blockout fabric to achieve night time privacy.

Luxaflex Products are easy to clean and maintain

Easy Maintenance

A key consideration particularly for those with a young family or those that are time-poor is the ease of maintenance. With such an extensive range, there are many Luxaflex Products that are effortless to care for. The Softshades Range is made from Polyester which is naturally anti-static, repelling dust. The Fabric Collection features selected fabrics treated with Duraguard® Fabric Protector and Sanitized® Antimicrobial Protection. See page 29 for more details. Luxaflex® PolySatin® Shutters can be removed from their hinged panels and hosed outside.

Motorisation – convenience at the touch of a button

Home Automation

Many of our motorised blinds, shades and awnings provide the convenience of remote control motorised technology through hard wired or battery systems, including integration into ‘Smart Home’ automation systems. This allows control of your window coverings at the touch of a button, timer or sensor. In addition to providing the ultimate choice in child safety and convenience, sensors can ensure the windows are shaded to provide optimal thermal efficiency in your home throughout the day.

Greater choice, refined product series

Luxaflex Window Fashions continue to evolve the Australian range of stunning window covering solutions for inside and outside your home with the Luxaflex Product Series. Each product type in this brochure offers styles, fabrics and finishes from the Designer, Classic and Living Series. The broader range ensures Australian home owners now have even more choice from the brand they know and trust, Luxaflex Window Fashions, in Australian homes since 1954.

The Designer Series is our exclusive top-of-the-range collection providing unique features and premium solutions.

The Classic Series is our core range of Luxaflex Products that Australian home owners have loved for generations.

The Living Series is our refreshingly affordable range of blinds and shutters customised to suit your lifestyle.

Why choose Luxaflex Window Fashions?

Personalised Service

We understand selecting the right window coverings solution can be difficult with so many choices in styles, operating systems, colours, opacities and options available to you.

Our Gallery Showrooms provide the ultimate in window fashions shopping experiences to make it simple and easy, from your initial enquiry through to the after-sales service.

Expert Advice

We will guide you through the selection of the right window covering, colour, style and operating mechanism to meet your personalised needs for your home and budget.

With access to the exclusive Designer range, we offer the largest selection to provide the ideal solution for your home.

Experience

The Luxaflex® Brand has been a household name in Australia since 1954. We know Australian homes and design our products to meet our high UV conditions. Our staff are thoroughly trained to ensure we provide customised solutions to meet your needs.

We are committed to ensuring you have a thoroughly satisfying experience and are 100% happy with your selection of your internal window covering. We guarantee it. If you are not happy with your choice, we will exchange it for another Luxaflex Product. We simply ask you to live with it for 20 days, then you have 20 days to make a claim, for a one time replacement. Full terms and conditions are available in the 20/20 Gallery Gold Guarantee brochure or on our website. Exclusively available in Luxaflex Window Fashions Galleries.

Innovation & Quality

It is the quality and technical excellence that sets Luxaflex Window Fashions apart. Many of our products are patented and are exclusive designs engineered and thoroughly tested for the harsh Australian climate. Luxaflex Window Fashions are beautiful products, designed to last.

Our made to measure manufacturing process combines the latest technology equipment and assembly methods with hand made care to ensure your window coverings meet our high quality standards.

Custom Solutions

All Luxaflex Window Fashions are custom made to your exact window requirements, so they fit perfectly to your windows, doorways or as room dividers.

Special conditions such as humid environments, special shaped windows, large windows and coastal environments (salt spray exposure) can be catered for. Our extensive range has a solution for everyone. Our experts will assist you in finding the right solution.

Child Safety

We understand the importance of safety in the home, especially for those with young children and pets. That's why all Luxaflex Window Fashions are designed with safety in mind and are compliant with the latest ACCC Child Safety Regulations to ensure they can be operated in a safe manner. We can advise you on the best method to update your entire home.

*All Luxaflex products that are installed correctly will comply with the Trade Practices (Consumer Product Safety Standard - Corded Internal Window Coverings) Amendment Regulations 2010 (No 1).

Warranty

All Luxaflex Window Fashions are backed with a 5 year warranty³. Luxaflex® PolySatin® Shutters come with a 20 year warranty^{3,4} and clear PVC Awning Fabric has a 12 month warranty.

We stand behind the quality of our products which provides you peace of mind in the unlikely event something goes wrong.

The Luxaflex Softshades Collection captures the essence of premium styling for your windows with the most comprehensive and unique collection of fashionable soft window fashions. The collection provides the entire house solution by coordinating complementary tones and fabrics across different windows and doorways in any room.

The Luxaflex Softshades Collection includes:

Available in a range of beautiful fabrics in a palette of modern colours

Revolutionary Invisi-Lift system which suspends the shadings' vanes for a floating appearance

EasyRise, Ultraglide or PowerView remote control operation

Luxaflex Pirouette Shadings are a patented and innovative window fashion allowing light and privacy to be controlled precisely with its unique design, featuring soft horizontal fabric vanes which can be adjusted to reveal filtered views or total privacy.

DESIGN OPTION
Coordinate with Luxaflex Luminette Privacy Sheers for the entire house solution.

Closed for full privacy

Contoured for elegance

Opened for unobstructed view through

Fabric valance conceals exclusive Softrak® system

Made from 100% polyester, select from a range of fabrics with translucent or room darkening vanes

SOFTRAK® System

Luxaflex Luminette Privacy Sheers are a visually striking alternative to sheer curtains with the benefit of translucent or room darkening vertical vanes that provide perfect light and privacy control with full 180 degree closure.

Available with manual wand operation or PowerView Motorisation for enhanced child safety.

Rotate vanes open for a soft, diffused view through

Rotate vanes closed for privacy

Drawn back for an unobstructed view to the outside

Luxaflex® Silhouette® Shadings

Fabric vanes
suspended
between 2 sheers
means no cords

Retain your view and
protect your furniture
from UV

Close the vanes for night time privacy

Sheer fabric gives daytime
privacy when vanes are open

Signature S-Vane,
available in 50mm, 65mm
and 70mm vane sizes

Luxaflex Silhouette Shadings, with the signature S-Vane, feature soft vanes suspended between two sheer facings. Translucent fabric vanes diffuse the light and filter the UV to provide a warm glow whilst room darkening fabric vanes help darken your room and provide privacy.

Available with a range of
operating systems, including
Ultraglide® 2 'click and walk away'
which offers an innovative self
lowering feature.

Luxaflex® Modern Roman Shades

See page 17 for operating system details.

Rear cordless design improves the view
from outside, end is completely child safe

PowerView motorisation:
For hard to reach windows

Duo-lite design:
Light and privacy can be controlled through 3 levels of opacity – sheer, translucent and blackout

Vertiglide operation:
Slide the shade from side to side

Extensive range of fabrics in a variety of textures and colours

Vertiglide

Skylight

Arch Window

The unique honeycomb structure of Luxaflex Duette Shades provides a contemporary striking look whilst providing efficient insulation by trapping air within the honeycomb cell. Easy to care for, there is a large selection of cell sizes and styles. Versatile design caters for arches, angles and skylights.

Largest range of innovative lifting systems including PowerView Motorisation for ease of operation and enhanced child safety. See page 17 for more options.

Vertiglide

LiteRise

Ultraglide

The inner TruPleat Construction keeps every shade crisp and consistent from front to back and top to bottom

LiteRise operation:
Simply raise the shade by hand

The multiple layers of fabric preserve the colours and textures in bright sunlight

The next generation in Luxaflex Duette Shades is exclusive to Luxaflex Window Fashions; Duette Architella Shades, featuring a honeycomb-within-a-honeycomb structure for superior energy efficiency, which reduces heat loss in Winter and keeps your home cooler in Summer.

Three distinct air pockets trap air within each cell deflecting heat

The revolutionary IllumaCell allows a greater amount of light to filter through the Architella Aurora Fabric, enhancing the texture and illuminating the fabric

Reduce your heating costs
by up to 49%¹

The latest innovation is the Designer Series exclusive Luxaflex Duette Architella Ménage Shades. This revolutionary fabric range features a 38mm triple honeycomb construction with six layers of fabric and five insulating air pockets, providing the best insulation currently available for window coverings.

Most of your home's energy is lost through windows. Research revealed that up to 30%² of heat loss from your home occurs through uncovered windows.

Choice of operating styles to suit your individual requirements	Duette Shades	Silhouette Shadings	Pirouette Shadings	Luminette Privacy Sheers	Modern Roman Shades
 Ultraglide Self lowering feature with a constant cord length for effortless operation, neat appearance and enhanced child safety.	✓	✓	✓		✓

Watch Luxaflex Window Fashions come to life

In two simple steps, the **viewa** app can bring our window shades and awnings to life via your smartphone or tablet. Discover the benefits and beauty of PowerView Motorisation in our house of the future.

1

Download the **viewa** app from the App store or Google play.

2

Hold your phone or tablet over this page to watch PowerView in motion.

PowerView® Motorisation

With Luxaflex PowerView Motorisation, the world’s most beautiful window fashions are now the most intelligent. This innovative wireless system controls & powers a range of Luxaflex products in your home. PowerView can automatically move your shades & awnings throughout the day, so you don’t have to.

Precise Operation:

PowerView offers precise control from one remote or your smart device across a variety of different Luxaflex products and styles, whether up, down, open, close, tilt or traverse.

Flexible Schedules:

With the PowerView App, you can quickly create customised *Scenes* that control all the shades in your home to operate together or in any combination you desire. Easily schedule those *Scenes* to move your shades automatically at a set time of your choosing or coordinating with Sunrise and Sunset.

Energy Efficient:

Customise Schedules to ensure your windows are shaded during the peak sun exposure times during Summer and cooler times during Winter to control solar energy throughout the seasons.

Secure:

The RemoteConnect™ feature, along with an internet connection, allows you to operate your shades from anywhere in the world, using your smartphone or tablet.

Child Friendly:

Along with the added convenience of cordless operation, PowerView Motorisation creates a safer environment for homes with young children and pets.

Diverse:

With the widest array of innovative styles, colours and fabrics in the industry, your motorised blinds are as beautiful as they are intelligent.

Battery Powered:

Most PowerView blinds are battery-powered, so they’re easy to install, operate and maintain. The battery-pack is hidden behind the headrail so there’s nothing to mar the beauty of your window shades.

PowerView is a cost effective automation solution. Integrate with your existing home automation system or operate via the PowerView app in conjunction with two different types of Pebble controls – a Pebble Remote Control or a Pebble Scene Control.

Available in 7 Colours

Fabric opacity

Sunscreen

Sunscreen fabrics allow for heat and light control whilst maintaining your view. Perfect for reducing glare and heat in a room exposed to the sun. Layer with blackout fabrics for night time privacy.

Sheer

Sheer fabrics give daytime privacy and some filtered view through subject to the texture and weave. Layer with blackout fabrics to give night time privacy.

Translucent

Translucent fabrics screen out harsh light, but do not allow a view through. They bring texture or patterns to light coming into a room whilst providing daytime and night time privacy.

Blockout

Blockout fabrics offer the ultimate level of privacy, day and night whilst helping to insulate the room. Blockout fabrics offer room darkening capabilities. Ideal for bedrooms and home theatre/TV rooms.

The Luxaflex Fabric Collection provides you with many choices for colour, texture, opacity, trims, operating methods and durability. Team different opacities in different rooms to suit your light, heat and privacy requirements.

Filter UV and control light, heat & glare

Manual cord or motorised operation

Retain your view

Luxaflex Sunscreens allow control of heat, glare and light while maintaining your view. Available in the very latest on trend colours, Sunscreens can add freshness with bold colours or a soft glow with warm neutrals. Their discreet design is the perfect choice for rooms heavily exposed to the sun.

Available with PowerView Motorisation for the ultimate in convenience and child safety.

Enduris®
GLASS CORE

Many Luxaflex Sunscreens feature Enduris® Glass Core Technology making them inherently fire retardant and stable with minimal shrinkage and warpage

Dual Roller Blinds team blackout with sunscreen or sheer fabrics for the ultimate in light & privacy control

Optional premium chain drive

Optional headbox. Also available with optional side channels.

Optional heavy duty with cable guide

Luxaflex Roller Blinds with patented EDGE Technology provide a stylish appearance and smooth operation, combining sophisticated technology with a variety of durable fabrics ranging from blackout to light filtering. Pelnets, corner, bay and straight link control available.

Cordless LiteRise operation is available for the ultimate in convenience and child safety.

Quality Guaranteed

Enjoy peace of mind when you buy genuine Luxaflex Roller Blinds. Only Luxaflex Window Fashions offer all the parts made by the one manufacturer. This means that Luxaflex fabrics, components and HD motors are manufactured with the highest quality standards and the end products are assembled by our experienced team here in Australia.

Qmotion Technology offers an affordable and super quiet battery-powered solution for Luxaflex Roller Blinds. Offering smooth operation, the blinds can be operated by remote control, smartphone or tablet using the free Qmotion app® or moved to the desired position by hand.

Qmotion® Technology uses regular D cell alkaline batteries discreetly hidden inside the roller tube. The batteries can be replaced without removing the blinds and can last up to five years*.

Operate by remote control

Operate by hand

Operate by smartphone

Luxaflex Window Fashions has a variety of motorised solutions whether you are after integration with a home automation system or wish to control your Luxaflex Roller Blinds via your smartphone or tablet. With no cords, motorisation provides a sleek look to your window coverings and offers enhanced child and pet safety.

Qmotion® ZigBee Technology

Luxaflex® Roller Blinds with Qmotion® ZigBee Technology is the answer to integrating Qmotion into Control4 automation systems. The Qmotion ZigBee motor communicates natively with Control4, which means no additional accessories are required for direct wireless communication.

Through the use of ZigBee HA1.2 technology and in-built collision avoidance, the communication consistency has been enhanced when compared to propriety protocols. This allows for a more responsive operation in RF rich environments and reduces potential interference from other electronic devices.

The Qmotion ZigBee motor is the perfect partner for Control4, finally offering the complete solution for automating lighting, air conditioning, intercom, security and blinds all from one system.

PowerView® Motorisation

PowerView enables intelligent motorisation for single or linked Roller Blinds, allowing a wide range of internal and external products to be operated off one complete system.

Operated by a 6 channel Pebble® Remote Control, mobile device (PowerView App) or a 3rd party automation system; PowerView offers the complete ‘connected homes’ experience.

Available in both 240v and battery-powered options, PowerView Motorisation is whisper quiet at less than 40dba (ISO3746). Take control by scheduling scenes which automatically activate throughout the day that suit your home and lifestyle.

Take Control

The blinds can be operated via the PowerView App or two different remote controls - a Pebble Remote Control or a Scene Controller.

The PowerView Pebble Remote Control offers a modern alternative to a traditional remote control, ergonomically designed and beautiful to look at, available in seven stylish colours to enhance any décor.

Control up to six different groupings of window treatments either individually or together. With just a press of a button you can create a custom ‘favourite’ position for each window treatment.

The PowerView Pebble Scene Controller features an advanced display screen that lets you conveniently preview and select room scenes that have been programmed using the PowerView App.

Get the PowerView® App

The PowerView App unlocks the full potential of PowerView Motorisation. Using the App on your smartphone or tablet, you can create and schedule customised room Scenes that allow your shades to operate on their own or together throughout the day.

Set Your Perfect Scene

Start by creating Scenes, multiple window treatments adjusted to the preferred position at different times of the day based on your light, privacy and overall room ambiance preferences. You can even schedule multiple-room Scenes to activate simultaneously.

Home Integration

Along with controlling your PowerView Shades through the PowerView App and Pebble Remote, PowerView also seamlessly integrates into 3rd party home automation systems. Synchronise your ‘Scenes’ to automatically activate in coordination with your other smart home devices to create picture-perfect settings throughout the day.

The PowerView HUB unifies your PowerView Scenes with that of the most popular home automation systems. This is made possible through a variety of methods, including local connectivity within the home (IP and RS-232 serial), Dry Contact (240V AC motor) as well as outside of the home through the cloud.

Other Motorised Solutions

Other options include the basic Merger motors (Merger Remote, Merger Switch or Merger Remote 37) or the premium European motor solutions from Somfy® (Somfy® Remote or Somfy® Switch).

Choose the right type of fabric for your room's light and privacy needs

Choice of operating systems

With a contemporary look and feel, Luxaflex Roman Shades can be paired with an extensive fabric range. Fabrics range from blackout, translucent, sheer and selected sunscreens to suit your home and lifestyle. Options include decorative tassels, timber battens, reverse top down/bottom up operation and motorisation.

Beach® - No pelmet, side operated cord lock and pulley or loop chain. Sewn sides & rear batton pockets.

Classique® - Front cord lock with pelmet, aluminium rear battens

Reverse Roman - Raise from the bottom up and top down provides superior privacy & light control

Simple headrail system with glider mounted carriers for ease of operation

Luxaflex Panel Glide creates privacy, protection and an outstanding impression in any room. Perfect for a large window, door or as a room divider. The blinds are comprised of a series of smooth fabric panels that glide effortlessly sideways on a simple track mechanism, making it light and easy to operate.

Available in a range of fabric styles and trim options to suit your home.

Opened

Closed

Available with single or dual wand control for enhanced child safety

Sleek and practical design makes coordinating sliding doors and windows easy

Luxaflex Vertical Blinds offer a sleek, modern design incorporating fabric vanes that can be easily tilted or stacked to left, right, centre or split stacked to set the light mood you want. A large range of colours and fabrics are available to suit your taste, and they are easy to clean and operate.

Available in two operating systems: Chain and Cord or Traversing Wand, offering design flexibility for your room.

Our track is the most flexible solution for large sloping and irregular shaped windows and offers perfect light protection with a 200 degree vane closure to ensure minimal light leakage between blades.

Luxaflex fabrics are made from the highest quality yarns and most are manufactured here in Australia.

Easy to Clean & Maintain

Many Luxaflex Fabrics are treated with Duraguard Fabric Protector, which effectively repels most stain causing agents with its proven water based, preventative formula. Your Luxaflex Window Fashions will:

- resist water stains from rain, moisture and condensation on windows
- resist oily stains from spills or fingerprints.

NO BACTERIA

NO MILDEW

NO ODOUR

Reduced Allergens for a Healthy Home

Selected Luxaflex Fabrics are treated with Sanitized® hygiene function, which:

- effectively reduces the development of bacteria, odour and mildew
- protects against the development of bacteria ensuring well-being in your home
- is free of harmful substances and is recommended by institutions for allergy sufferers.

Fade Resistant

Luxaflex Fabrics undergo stringent testing to ensure they resist fading and maintain their original appearance for many years. All Luxaflex Fabrics have been tested for colour or light fastness on a scale from 1 to 8, where 8 is most fade resistant from exposure to light. The Luxaflex Quality standard is 6 and above. Many other blind & curtain fabrics available in Australia do not pass these tests resulting in a shorter product life.

Fire Retardant

Luxaflex fire retardant fabrics have been designed specifically to inhibit the spread of flames and smoke in the event of a fire. The fabrics are independently tested in accordance with the Australian Standard.

The Luxaflex® Woods Collection includes:

Luxaflex PolySatin Shutters

Luxaflex Timber Shutters

Luxaflex Country Woods Venetians

Luxaflex Wood-Essence Blinds

The Luxaflex Woods Collection brings the natural beauty of timber and the best of engineered timber looking products to your home. Providing a classic, traditional or modern styling, the mood of your room can be created to suit your individual requirements.

Luxaflex Country Woods Venetians are the perfect choice if you appreciate the look and feel of natural timber. Colour coordinated tassels, cords and accessories are standard on all products.

Cordless LiteRise and Motorised operation options are available for the ultimate in convenience and child safety.

Available in a range of colours in 50mm and 63mm slats

Luxaflex Wood Essence Blinds provide a practical alternative to timber blinds. Made from polystyrene they have the stylish look of timber and are perfect for high humidity areas such as bathrooms, laundries and kitchens as they are impervious to moisture.

Cordless LiteRise and Motorised operation options are available for the ultimate in convenience and child safety.

Woods Operating Systems

Choice of operating styles to suit your individual requirements		PolySatin® Shutters	Timber Shutters	Country Woods® Venetians	Wood Essence Blinds
	Hinged The standard hinged option is suitable for small to medium window widths and can consist of one or more rectangular shutter panels hinged in a variety of configurations.	✓	✓		
	Bi-fold Depending on window size, hinged bi-fold has one panel bi-folding off another. Bi-fold on track is for widths and heights greater than those that can be achieved by hinged bi-fold.	✓	✓		
	Bi-pass (sliding) The sliding system allows you to cover wide widths, and is ideal for sliding doors. Sliding systems require the use of a top track and bottom guides or a bottom track.	✓	✓		
	LiteRise Cordless operating system for enhanced child safety. Raise and lower the shade by hand.			✓	✓
	Manual Cord Lock Raise and lower the shade manually and lock in place with the cord lock. Wind excess cord around the cleats.			✓	✓
	Motorised Hard-wired motorised and controlled with a remote or wall switch. Operate the blind with the touch of a button across one or multiple window coverings.			✓	✓
	Shapes Solutions are available for special window shapes such as sloping, angled and arched windows which are operable or fixed.	✓ Operable			

Luxaflex® Aluminium Collection

Luxaflex Aluminium Venetian Blinds are simply stylish, providing a timeless design that suits many decorating styles and are highly functional for both heat and privacy control. Available in many different colours and special finishes including perforated, with 16mm, 25mm and 50mm slat sizes.

Operate the blind with the optional single wand or the LiteRise operating system for the ultimate in convenience and child safety.
